REPORT OF THE PROGRAMME:

Womn empowerment refers to making women powerful to make them the capable of deciding for themselves. Women have suffered a lot through the years at the hands of men. In earlier centuries, they were treated as almost non-existent. As if all the rights belonged to men even something as basic as voting. As the times evolved, Women realized their power. There on began the revolution for women empowerment

Women in india have to face a lot of issues. They have to go through gender discrimination, harassmnet, sexual abuse, lack of education, dowry-related harassmnet, gender pay gap and much more violance against women and girls.
