## **The performance of the Institution in one area distinctive to its priority and thrust within.**

The College constantly strives to achieve perfection in all areas concerned. As the students are of main importance in the college, the thrust is given to pave way for the holistic development of the students. Holistic development is viewed as imparting education as per standards and at the same time helping them to develop social skills, soft skills, awareness of the contemporary society and also knowledge of their rich and varied heritage to become psychologically strong and morally perfect citizens. In order to make the students feel responsibility towards the nation, the college celebrates all important National festivals with dedication. Most often the students are encouraged to discuss contemporary situation in the classes and are given chance to express their views and widen their knowledge regarding current affairs. Also they are given projects where they need to turn to their past history to explore knowledge. Most often the knowledge thus gain is brought into books either typed by them or written in the monthly hand - script magazine run in the college. To strengthen the students morally teachers take opportunity to give counseling to them whenever there is an occasion. The department of Telugu organizes special session for the students where they read Mahabharata and their teacher explains the moral intricacies of the chapters they read. The affiliating university has introduced courses like Human Values and Professional Ethics, Environmental Studies, Leadership Education and Entrepreneurship, as part of value based education. Though they are proposed as foundation courses, the college appoints full time lecturers to teach the subjects. Thus value based education is imparted to students. In addition, guest lectures/ personality development classes are also arranged to help the overall development of the students.

Career development is also given major thrust in the college. The college has Jawahar knowledge Centre which works on regular basis, and also Andhra Pradesh State Skill Development Centre that trains the students continually. In the last 5 years, 1570 students were trained in JKC in 11 batches. APSSDC gave training to 304 students in 6 batches. Social Responsibility is a part of student life in our college campus. Every year 100 students work for NSS and 60 students join NCC. Both units participate in community work, including students who are not

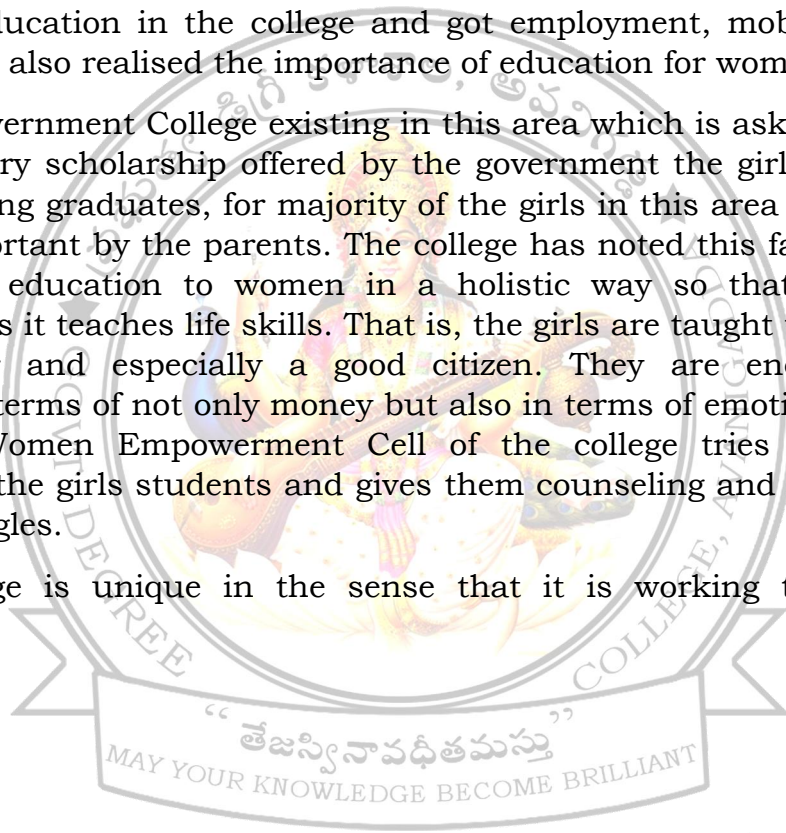

regualr volunters/ cadets. They do service in and out of the campus whenever need is identified.

GDC Avanigadda is unique in the sense that it has brought a tremendous change in the social scenario of the island area. Earlier this area is known for factionism where its common among the young people to get involved in riots and sometimes murders. After the college was established following the initiative of the local MLA and Minister for Education Mandali Venkata Krishna

Rao, there occurred exchange in the temperament of the youth. They realised the value of education and found that it paves them a way to better life. Thus many youth joined this college, changed their lifestyles and thus a change in the societal atmosphere has resulted. For years together the people of this Island area remained bound to the soil and did not go outside into the broader world. After they had got education in the college and got employment, mobilization started and people have also realised the importance of education for women.

Only for the Government College existing in this area which is asking very low fees and offering every scholarship offered by the government the girl students of the area are becoming graduates, for majority of the girls in this area education is not considered important by the parents. The college has noted this fact and is taking care to impart education to women in a holistic way so that in addition to employable skills it teaches life skills. That is, the girls are taught to be a good wife, a good mother and especially a good citizen. They are encouraged to be independent in terms of not only money but also in terms of emotional intelligence as well. The Women Empowerment Cell of the college tries for the holistic development of the girls students and gives them counseling and offers them help from various angles.

Thus the college is unique in the sense that it is working towards societal transformation.
