Title : Tutorial Classes to Govt. High School Students

Objective : 1.To Cultivate Interest among students

2. To Understand the basics

3. To remove the fear among students in Mathematics

4. To explain the subject deeply

5. To secure 100 % marks in final exams

Content : Most of the students studying in High School bothered very much about pure geometry. It requires a lot of explanation with neat diagrams. After listening the subject in class room, this tutorial class helps them very much in understanding the concepts of pure geometry.

Practice: Mr.B.Hari babu and J.Pravin Kumar explained the basic concept in pure geometry and Algebraic Expressions. They explained theorems and problems related to similar Triangles and Algebraic Expressions.

Evidence: They engaged the tutorial classes daily for 2 hours in evening study hours for all hostel students for one week.

Problems Faced And Resources Required:

Due to the lack of basic Knowledge in the subject for high school students, it is somewhat difficult to explain the basic concepts.
