**Title** : Induction Method on University Exams to Freshers

**Objective** :

1. To cultivate interest among students.
2. To understand the University pattern.
3. To remove the fear among students in mathematics.
4. To give clarity about question paper pattern.
5. To secure 100% marks in Semester Exams.

**Content** :

The most first year students have no idea about semester system. In the previous classes they experienced a year end exams. This practice creates self - confidence among the freshers to face semester exams.

**Practice** :

Mr S Jugan Kumar explained the mode of the semester system up to 6th semester. He explained clearly about the question paper pattern and how to save the time while writing the sum. He also explained the pattern about "**best beginning and best ending**".

**Evidence** :

He conducted the allotted task in time. He also clarified all doubts from all the participants.

**Problems Faced and Resources Required** :

In the beginning some freshers are bothered very much by asking questions oftenly.
