World Environment Day Celebrations

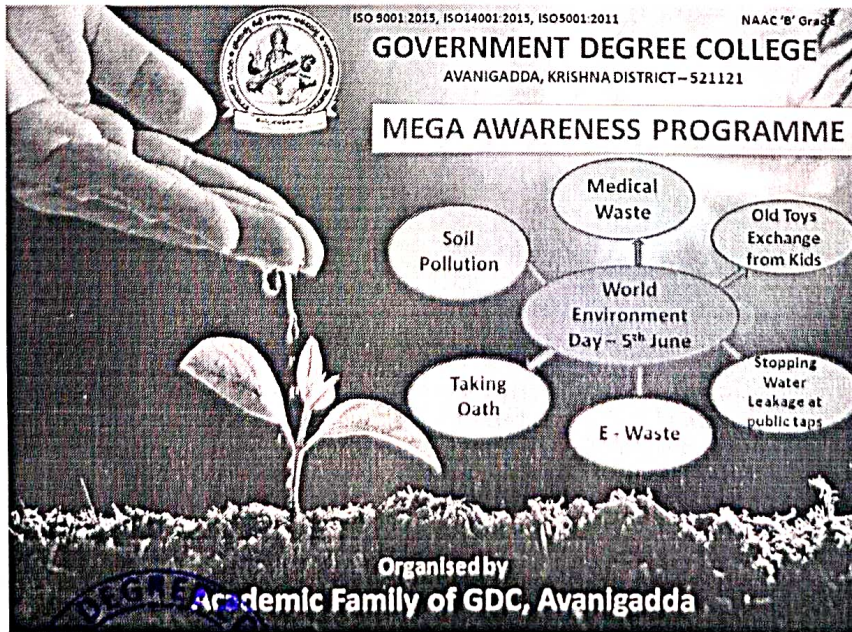

on 5th June 2022

organised by

Department of Physics, Government Degree College Avanigadda

Department of Physics celebrates World Environment Day on 5th June every year to aware the student community as well as public by conducting various activities which provoke the civic responsibility in every individual. As a part of this Department of physics with its club members participated in all the activities, plastic toys exchange from kids, soil pollution awareness, stopping leakage of water at public taps, medical waste management, E-waste management, taking oath etc. arranged by Academic Family of GDC. Avanigadda.

Along with all these activities, the Department of Physics specially organised a survey on "Green Family Audit". About 50 responses were received. From the received responses, nobody has awareness about energy crisis, except very few. Just they know about the crisis to little extent, but they are not adopting any single method for saving energy. Our survey concentrated mainly on educated people. Educated community is also not feeling any responsibility about this serious issue. In this significant day, we, the department of Physics has taken a oath specially to arrange awareness programmes on energy crisis, regularly in our area in offline mode and to the people away from our place in online mode in 5th of every month.
