## **NATIONAL SERVICE SCHEME**

### **A BRIEF REPORT ON**

# **HEMOGLOBIN TESTS - 14-09-2023**

A hemoglobin test measures the levels of hemoglobin in your blood. Hemoglobin is a protein in your red blood cells that carries oxygen from your lungs to the rest of your body. If your hemoglobin levels are abnormal, it may be a sign that you have a blood disorder.

A hemoglobin test is often used to check for anemia, a condition in which your body has fewer red blood cells than normal. If you have anemia, the cells in your body don't get all the oxygen they need. Hemoglobin tests are measured as part of a complete blood count (CBC).

**Objectives of the Programme :**

- **To measure the hemoglobin levels in one's blood**
- **To make awareness on Hemoglobin Percentage tests & levels**

**No.of Students participated : 53**

**No.of Lecturers participated : 5**

**HEMOGLOBIN TESTS AT MANA TV HALL**
